Greetings - 1928

IN presenting our 1928 catalog to you we again wish to thank you, our many customers, for your patronage in the past, and for the many letters telling us of the successes, pleasures, and at times failures, had in growing our Tubers and Green Plants.

A great many of our customers have been with us since we first started shipping dahlias and we await their letters and order each year with great pleasure.

Errors and mistakes arise in the best of firms, but should any customer of ours receive tubers or Green Plants that do not bloom true to type and name we shall be only too pleased to replace them.

Early orders are solicited.

Terms: Cash with order or in advance of shipment.

Guarantee: We guarantee the safe arrival, in growing condition, of all green plants shipped, and will cheerfully replace any that do not so arrive. We will not be held responsible for more than the purchase price. Plants not received in growing condition must be returned immediately all forwarding charges prepaid.

Substitution: We do not substitute except upon permission.

Garden sales, and orders taken at Dahlia Shows have again cleaned some varieties so close that we will be unable to list them here, and many here will be limited.

A word about Green Plants

WE offer many varieties in Green Plants very reasonable. These are not little rooted cuttings or large, soft Greenhouse plants that are liable to die when planted out. If you have had poor luck with dahlia plants in previous years, for your sake we ask you to give our Green Plants a trial.

They are good healthy plants hardened off in cold frames, well rooted and ready to go ahead and plant. Furthermore our method of packing plants is such that they will reach you in good growing condition. We prefer Green Plants for several reasons. They produce better flowers as well as better tubers, which are cleaner and free from disease.

Many of our customers who were formerly prejudiced against plants, now order them almost entirely after trying them.

Don't think you live too far to buy plants as we have sent them most everywhere in the United States and Canada.

Deep massive blooms of bronzy buff and old gold blending darker toward the perfect center. Broad petals with just enough twist to add the refinement so often lacking in the largest dahlia. A stem of unusual strength holds this giant decorative over a bush of ideal growth, while the foliage is the thick leathery kind that insects seldom bother. This dahlia was the sensational seedling of The American Dahlia Society's Show, which Jane Cowl officially opened by choosing it (then an unnamed seedling) to be named for her. At this show it won first as the best undisseminated decorative seedling and also the Garden and Home Builder's Sweepstakes Medal.
